

Kim E Emery, M.S.

Education:

B.A. degree in Natural & Applied Science (Human Illness Concentration) - University of Southern Maine (Lewiston-Auburn) 2004

M.S. degree in Biology from the University of Southern Maine (Portland) 2008

Research experience:

Laboratory and Field work in studying genotoxicity caused by environmental toxins.

Course work:

Genomic and Precision Medicine - University of Southern California (San Francisco) 2015

Teaching Expertise (limit to 3 areas):

Microbiology with lab - 2003 to present

Anatomy & Physiology with lab -2007 to present

Molecular Physiology Lab (assistant) - 2006-2007

Publications/Presentations (limit to 2):

Annual North American Conference for the Society of Environmental Toxicology and Chemistry. Salt Lake City, UT. Genotoxicity in Androscoggin River Small Mouth Bass. November 2002.

Annual North American Conference for the Society of Environmental Toxicology and Chemistry. Austin, TX. Genotoxicity in the Common Loon. November 2003.
